

Anhui Tianfu new material Co., LTD

Building a creative more innovative world.

Project Specification

Location : Jiangsu

Application: Outdoor landscape decoration

Product: Fibreglass Grating

Overview

Transparent FRP grille is a new decorative material, not only environmental protection grade material, high hardness and corrosion resistance, bearing degree is very strong, indoor and outdoor walls, roofs and floors can be used, and add a variety of colours after the colour paste, translucent clear! New texture, and the combination of light and shadow, to create a high-level simple space effect. It is waterproof and fireproof, and can be cut and combined at will, which is loved by designers.

Problem

As a cityscape, the design company wants to create a net red photo shooting place, presenting visitors with smooth lines and rhythm, like water waves, slowly bringing a pure, fresh and cool feeling to the space; immersive experience of taking photos in minutes out of the blockbuster feeling!

Solution

Tianfu new material FRP grating has the following advantages: Transparency The high transmittance of the product, combined with the sunlight, creates a water ripple like fresh and elegant, literary sense of exquisite space.

Corrosion resistant It will not be affected by some corrosive substances, and can be used steadily for a long time without affecting its service life.

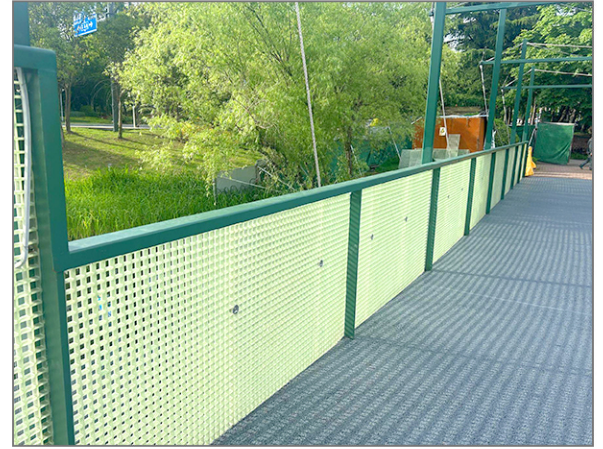

Lightweight The material is thin and light, only one-third of the weight of steel.

Easy to install; no heavy equipment required

Maintenance-free

Cost-effective

Tianfu New Material worked with this company to design a structure that met the client's requirements. We chose 25 thick pale white FRP structural products to build the partitions. The structures were prefabricated and delivered to site where they were installed by the site contractor using our materials.
